Queensland Sexual and Reproductive Health Nurse Authorisation course

Course outcome
On successful completion of the Authorisation course, an Advanced Sexual and Reproductive Health nurse may apply to Queensland Health for authorisation under a Drug Therapy Protocol (DTP) as a Sexual and Reproductive Health Authorisation Nurse

Course Eligibility
This course is relevant for nurses working in the area of sexual and reproductive health in Queensland who have submitted the Eligibility Pack to Family Planning Queensland and been assessed as having met all the Prerequisites.

Course Aims
The aim of this course is to provide an opportunity for sexual and reproductive health nurses who are already working in an advanced capacity, to further enhance their knowledge and skills in relation to the safe supply and administration of medication within a sexual and reproductive health program according to the DTP – Sexual Health Program (including reproductive Health), relevant approved Health Management Protocol and the Queensland Health (Drugs & Poisons) Regulation 1996

Course Objectives
• Supply and administer drugs according to the DTP – Sexual Health
• Discuss the issues and processes of sexual and reproductive development through the lifespan
• Examine issues, attitudes and choices that impact upon sexual expression and behaviour, and promotion of sexual and reproductive health.
• Identify factors that influence reproductive and contraceptive choices, and male and female sexual and reproductive health

Course Materials
Once the eligibility process has been finalised and the nurse has registered for the course, the course and associated materials are provided online by Central Queensland University.

Assessment
Assessment will be marked by the course coordinator. To receive a certificate of completion all assessment requirements must be completed and pass mark achieved.

Accreditation & Credit Points
Successful completion of the course will attract 20 CPD points.
