

## IUD/Mirena Insertion Training

### Participant Quote (taken from course evaluation)

“The clinical training with an experienced trainer made it very comfortable and non stressful training. I was also exposed to a variety of women.” *GP, Brisbane 2006*

“Many thanks for the opportunity to train with FPQ. It was a very rewarding experience and I appreciate the time and effort put into the organisation of my 2 days there. Most particularly I appreciate the time, effort, patience and friendliness of the staff.” *GP, Brisbane, 2009*

The IUD/Mirena Insertion Training provides doctors with supervised clinical training for the insertion of copper and progestogen bearing IUDs. Note: *this training is only suitable for GPs with a high level of experience/training in women’s health.*

### Eligibility & Pre-requisites

- Qualified Medical Practitioners - MBBS or equivalent
- Queensland Medical Board registration and current indemnity insurance
- Experience in women’s sexual and reproductive health
- Recommended to have completed the theory and clinical attachment components of the *Sexual Health & Family Planning Australia Certificate in Sexual & Reproductive Health* (this course is delivered by FPQ)

### Course Recognition

- RACGP

### Course Objective

To provide doctors with supervised clinical training for the insertion of copper and progestogen bearing IUDs.
