Academic Joins Sexuality Education Honour Roll

Family Planning Queensland has nominated Associate Lecturer Louise McCuaig (Human Movement Studies) for inclusion on the 2009 honour roll of educators.

The honour roll features educators who have made a substantial contribution to sexuality education over the past 21 years. Louise was recognised for decades of leadership and commitment to the education and training of pre-service teachers. She joined three other people nominated for 2009, including former Queensland Premier, Mike Ahern, who advocated for sex education to be included in school curriculums.
